

# Cole Joshua Barrett

## PROFESSIONAL SUMMARY

---

Motivated aspiring Junior Web Developer with foundational experience in web technologies, graphic design, and problem-solving, supported by a mathematics degree. Familiar with HTML and CSS, with additional skills in graphic and video editing using Adobe Photoshop and Premiere Pro. Eager to grow as a developer while building a coding-focused YouTube channel to document and share learning experiences and coding concepts.

## WORK EXPERIENCE

---

### Freelance Developer Self-Employed

*Apr 2024 - Sep 2024  
Bicester*

- Developed a web crawler to automate PDF processing, reducing manual workflows from hours to minutes.
- Designed, built, and deployed custom desktop and Android applications, ensuring user-friendly interfaces and robust functionality.
- Worked closely with clients to define project requirements, timelines, and deliverables, balancing technical feasibility with client expectations.
- Oversaw the full project lifecycle, from planning and development to testing and deployment.

### Sales Assistant Tesco

*Apr 2021 - Apr 2023  
Bicester & Bognor Regis*

- Ensured accurate stocking and organization during night shift deliveries, maintaining inventory readiness for seamless customer experience each morning.
- Leveraged communication and problem-solving skills to resolve customer issues and ensure smooth daily operations.

### Furniture Department Team Leader Dunelm

*Jun 2017 - Sep 2018  
Salisbury*

- Coordinated stock management and display setups, focusing on detail-oriented organizational tasks.
- Supported the department's digital records, ensuring alignment between physical stock and system data..

## EDUCATION

---

### NEWCASTLE UNIVERSITY Bachelor of Science in Mathematics

*Newcastle Upon Tyne, Northumberland  
2021*

### BURGATE SCHOOL AND SIXTH FORM A levels

*Fordingbridge, Hampshire  
2017*

Maths - A | Physics - A | Chemistry - B

## SKILLS:

- Programming Languages: HTML, CSS, SCSS
- Adobe Photoshop
- Adobe Premiere Pro
- Problem solving
- Team collaboration
- Video Editing
- Graphic Design
- Numerically proficient
- Attention to Detail

## HOBBIES

- Video editing
- Storytelling
- Formula 1
- Esports
- Competitive gaming

## PROJECTS AND INTERESTS

---

**Graphic Design & Video Editing:** I enjoy creating thumbnails and graphics that stand out and grab attention. There's something really satisfying about starting with a messy concept and layering it piece by piece until it transforms into a polished final product. I also love video editing in After Effects, where I can see all the elements come together into something engaging and exciting.

**Storytelling and Gaming:** Researching and presenting compelling narratives is a passion of mine. I enjoy breaking down complex topics and delivering them in an engaging way, whether through storytelling projects or gaming experiences. One project I'm particularly excited about is my aspiration to create a documentary about *DOOM* (1993), diving into its origins, cultural impact, and legacy in the gaming world.

**YouTube Channel:** I'm building a coding-focused YouTube channel to share tutorials, projects, and insights. For me, it's a way to cement my understanding of programming concepts—if you can't explain something clearly, you probably don't fully understand it. Creating content helps me refine my skills while sharing knowledge with others.
